PROJECTS

Zipf — <https://github.com/cryptoc1/zipf>

Zipf is a blogging framework that I originally wrote in Python, but later rewrote using NodeJS. The main purpose of this project was to provide a backbone for my own blog.

Cameron — <https://github.com/trmml/cameron>

Cameron is a smaller project that my friend Josh started, and I helped with. In particular, I wrote the markov chain for the compliment generator.

SKILLS

Fluent in node/JavaScript and Python, as well as other languages such as C, HTML/CSS, and Swift/Objective-C

Knowledgeable of Windows, Linux, OS X, Android, and iOS

Experience with Epicor Eagle and POSiTouch POS Systems
